Network Runners and Fornetix to Partner and Exhibit
at the 2018 CDCA Defense Summit

Sterling, VA. and Frederick, MD, – Dec. 3rd, 2018 –Network Runners, a top technology consulting services company that serves the commercial and federal government market spaces, and Fornetix, a leading provider of advanced enterprise-grade encryption key management, today announced they will be partnering and exhibiting together at the 2018 [Charleston Defense Contractors Association (CDCA) Defense Summit](#) in Charleston, S.C., on Dec. 5-6, 2018.

The CDCA Defense Summit is one of the largest defense-focused events on the East Coast, bringing together more than 1,000 government and industry leaders to spark ideas, innovation and solutions to technology challenges. Presentations, demonstrations, and collaborative discussions will include the full spectrum of defense technologies, with particular focus in the areas of C5ISR (Command, Control, Communications, Computers, Combat Systems, Intelligence, Surveillance, and Reconnaissance), information warfare and cyber security.

The Summit will explore topics including the 12 points of National Defense Strategy, Rapid Innovation, Unmanned Systems, IoT, Research & Development and Cyber Hardening. With the latest in end-to-end IT enterprise technology, the Summit is the premier venue on the East Coast to educate, network and increase understanding of the Department of Defense, modernization solutions and improved support for the Warfighter.

"We are excited to co-exhibit at this year's CDCA Defense Summit with our partner, Fornetix, where we will feature their powerful solution for encryption key management," said Manoj Bhatia, president and co-founder of Network Runners. "As an economically-disadvantaged, woman-owned small business (EDWOSB) based in Virginia, Network Runners has extensive experience and broad expertise in delivering customized solutions to the DoD and its contractors."

"With the DOD's increased focus on cybersecurity, it's critical to establish an infrastructure that can handle the looming expansion in encryption keys. Key Orchestration enables automated lifecycle management for hundreds of millions of keys," said Mark Gilroy, Chief Executive Officer of Fornetix. "We look forward to partnering with Network Runners at the CDCA Defense Summit to connect government organizations and contractors with appropriate solutions and contract vehicles."

About Network Runners
Network Runners, Inc. (NRI) is a growing technology consulting services company serving the Commercial and Federal market space since 2009. While continuing to serve its original Commercial clients, NRI's largest presence is now in the Civil and Department of Defense agencies; providing Information Technology and Organizational Support solutions to the U.S. Marine Corps, U.S Army, U.S. Navy, Joint Agencies, DIA, USDA/NIFA, USDA/FNS, USDA/FSIS, USDA/FSA, BPD, BFS etc. Headquartered in Sterling, Virginia, NRI is an established ISO 9001: 2015 and CMMI Maturity Level 3, Woman Owned Small Business, Virginia MBE and Maryland MBE. About Fornetix
Fornetix Key Orchestration is an enterprise encryption key management solution that enables a unified approach to data security by deploying and enforcing encryption across an entire organization. This unification allows for centralized storage and control for all encryption keys across all types of environments; whether it's on-premise storage, virtualized, or cloud. Through a robust and extensive API and a dedication to industry standards, Fornetix is built on interoperability. When paired with the ability to scale to hundreds of millions of keys, Key Orchestration ensures seamless integration with organizations today and provides the ability to grow with them in the future.
