Network Runners and GreenTec-USA, Inc. to Partner and Exhibit at the 2018 CDCA Defense Summit

STERLING, Va. – Dec. 3rd, 2018 –Network Runners, a top technology consulting services company that serves the commercial and federal government market spaces and GreenTec-USA, Inc., a leading provider of cyber-defense storage and video compression technologies, today announced they will be partnering and exhibiting together at the 2018 [Charleston Defense Contractors Association \(CDCA\) Defense Summit](#) in Charleston, S.C., on Dec. 5-6, 2018.

The CDCA Defense Summit is one of the largest defense-focused events on the East Coast, bringing together more than 1,000 government and industry leaders to spark ideas, innovation and solutions to technology challenges. Presentations, demonstrations, and collaborative discussions will include the full spectrum of defense technologies, with particular focus in the areas of C5ISR (Command, Control, Communications, Computers, Combat Systems, Intelligence, Surveillance, and Reconnaissance), information warfare and cyber security.

The Summit will explore topics including the 12 points of National Defense Strategy, Rapid Innovation, Unmanned Systems, IoT, Research & Development and Cyber Hardening. With the latest in end-to-end IT enterprise technology, the Summit is the premier venue on the East Coast to educate, network and increase understanding of the Department of Defense, modernization solutions and improved support for the Warfighter.

“We are excited to co-exhibit at this year’s CDCA Defense Summit with our partner, GreenTec-USA, Inc., where we will feature their immutable CYBERdisk™ and WORMdisk™ storage and XTC-2200 Video Compressor solutions” said Manoj Bhatia, president and co-founder of Network Runners. “As an economically-disadvantaged, woman-owned small business (EDWOSB) based in Virginia, Network Runners has extensive experience and broad expertise in delivering customized solutions to the DoD and its contractors.”

Simple impervious cyber-defense that works with standard systems and applications “With the DoD’s increased focus on cybersecurity, “WORMdisk and CYBERdisk solutions are the only NIST SP 1800-11 standard for data integrity and protection against Ransomware and other destructive events” said Steve Petruzzo, President and CEO of GreenTec-USA, Inc. “NIST, DISA, DOJ, banks, credit unions, oil and gas, telecommunication companies, brokerage firms and many others are using these technologies to ensure that data is impervious to Ransomware,

deletion, modification and manipulation. The XTC-2200 Video Compressor significantly reduces video bandwidth and storage requirements with a 60 to 90 percent cost reduction. We look forward to partnering with Network Runners at the CDCA Defense Summit to connect government organizations and contractors with appropriate solutions and contract vehicles.”

About Network Runners

Network Runners, Inc. (NRI) is a growing technology consulting services company serving the Commercial and Federal market space since 2009. While continuing to serve its original Commercial clients, NRI’s largest presence is now in the Civil and Department of Defense agencies; providing Information Technology and Organizational Support solutions to the U.S. Marine Corps, U.S Army, U.S. Navy, Joint Agencies, DIA, USDA/NIFA, USDA/FNS, USDA/FSIS, USDA/FSA, BPD, BFS etc. Headquartered in Sterling, Virginia, NRI is an established ISO 9001: 2015 and CMMI Maturity Level 3, Woman Owned Small Business, Virginia MBE and Maryland MBE. About GreenTec-USA, Inc.

GreenTec-USA holds numerous patents and industry firsts for secure servers and storage technologies that are the NIST SP 1800-11 standard for data integrity and protection from Ransomware and other destructive events. Their video compression technologies save up to 90 percent of the wireless bandwidth and storage required for video while improving frame rates and resolution. GreenTec has over 30 years of experience developing secure solutions for the DoD, The Intelligence Community and for unclassified Government agencies with products and consulting services that help companies and organizations determine the most secure, reliable and cost efficient solutions for data-centric applications.
