Network Runners and Mercury Systems to Collaborate at the 2018 CDCA Defense Summit

Sterling, VA and Andover, Mass. – Dec. 3rd, 2018 – Network Runners, a top technology consulting services company that serves the commercial and federal government market spaces and Mercury Systems, Inc., a leading commercial provider of secure and safety-critical processing subsystems, today announced they will be collaborating and exhibiting together at the 2018 Charleston Defense Contractors Association (CDCA) Defense Summit in Charleston, S.C., on Dec. 5-6, 2018.

The CDCA Defense Summit is one of the largest defense-focused events on the East Coast, bringing together more than 1,000 government and industry leaders to spark ideas, innovation and solutions to technology challenges. Presentations, demonstrations, and collaborative discussions will include the full spectrum of defense technologies, with particular focus in the areas of C5ISR (Command, Control, Communications, Computers, Combat Systems, Intelligence, Surveillance, and Reconnaissance), information warfare and cyber security.

The Summit will explore topics including the 12 points of National Defense Strategy, Rapid Innovation, Unmanned Systems, IoT, Research & Development and Cyber Hardening. With the latest in end-to-end IT enterprise technology, the Summit is the premier venue on the East Coast to educate, network and increase understanding of the Department of Defense, modernization solutions and improved support for the Warfighter.

"We are excited to co-exhibit at this year's CDCA Defense Summit with Mercury Systems, where we will feature their small form factor RESmini, HDversa, and Nanopak i7 computing solutions," said Manoj Bhatia, president and co-founder of Network Runners. "As an economically-disadvantaged, woman-owned small business (EDWOSB) based in Virginia, Network Runners has extensive experience and broad expertise in delivering customized solutions to the DoD and its contractors."

"With the DoD's increased focus on cybersecurity, our platforms can be tailored to meet a range of security requirements," said Scott Orton, General Manager of Mercury Systems. "As one of the largest providers of rugged servers, we look forward to working with Network Runners at the CDCA Defense Summit to connect government organizations and contractors with appropriate solutions and contract vehicles."

About Network Runners
