

## PARTNER WEB SYNDICATION PROGRAM

### WHAT IS WEB SYNDICATION?

The **Forcepoint Partner Web Syndication** Program allows our partners to promote Forcepoint® security solutions within their sites with minimal effort. The content is centrally managed and automatically updated — we do all the work, so your visitors have access to the latest Forcepoint solutions information.

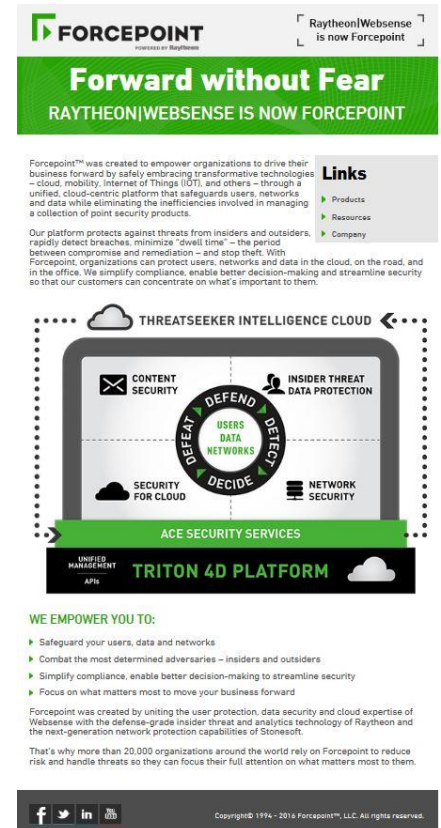

### THE BENEFITS OF THE FORCEPOINT PARTNERWEB SYNDICATION PROGRAM

- Quickly and easily add Forcepoint pages to your site by embedding the HTML code we provide.
- Requires minimum maintenance on your part and assures you the Forcepoint information you are providing is up-to-date.
- Allows you to retain the look and feel of your own website while promoting Forcepoint solutions.
- Information is automatically updated by Forcepoint so you won't have to monitor pages and manually add new information.

### USING FORCEPOINT PARTNER WEB SYNDICATION IS EASY

In just a few easy steps, your site will have the most up-to-date Forcepoint information and content.

- ▶ Request participation via the [Web Syndication form on the Partner Portal](#).
- ▶ Once you receive the acceptance email, you will be given the code you need to embed the Forcepoint pages on your site. You will retain your website look and feel while promoting Forcepoint solutions to your visitors.
- ▶ Once you have deployed the syndicated pages, please send the URL to [partnermarketing@forcepoint.com](mailto:partnermarketing@forcepoint.com) for our records.

**FORCEPOINT** Raytheon|Websense is now Forcepoint

**Forward without Fear**  
RAYTHEON|WEBSENSE IS NOW FORCEPOINT

Forcepoint™ was created to empower organizations to drive their business forward by safely embracing transformative technologies – cloud, mobility, Internet of Things (IoT), and others – through a unified, cloud-centric platform that safeguards users, networks and data while eliminating the inefficiencies involved in managing a collection of point security products.

Our platform protects against threats from insiders and outsiders, rapidly detect breaches, minimize “dwell time” – the period between compromise and remediation – and stop theft. With Forcepoint, organizations can protect users, networks and data in the cloud, on the road, and in the office. We simplify compliance, enable better decision-making and streamline security so that our customers can concentrate on what’s important to them.

**WE EMPOWER YOU TO:**

- ▶ Safeguard your users, data and networks
- ▶ Combat the most determined adversaries – insiders and outsiders
- ▶ Simplify compliance, enable better decision-making to streamline security
- ▶ Focus on what matters most to move your business forward

Forcepoint was created by uniting the user protection, data security and cloud expertise of Websense with the defense-grade insider threat and analytics technology of Raytheon and the next-generation network protection capabilities of StoneSoft.

That’s why more than 20,000 organizations around the world rely on Forcepoint to reduce risk and handle threats so they can focus their full attention on what matters most to them.
